

RECORD ME - Spellcraft words + sentences (359 entries)

For each entry: say the number, then the WORD, a clear pause, the SENTENCE, another pause, the WORD again:

"Number one. ...the. (pause) The dog wagged its happy tail. (pause) ...the."

The number is a splitting marker (cut out later). The pauses matter - they split each take into the word-alone clip and the in-a-sentence clip. Fluffed one? Repeat the same number; the last take wins.

Record in one go or in chunks. Drop files into OneDrive > Times tables > recordings when done.
